

CITA *Centre for Information Technology and Architecture // <http://cita.karch.dk> presents*

23.11.2007

Symposium Parametric Approaches II:

Computation and Material

An international symposium on the development of digital architecture for students and professionals

Start:

12:30 Registration

13:00 Introduction and Keynote

17:00 Expected End

Location:

Royal Danish Academy of Fine Arts
School of Architecture Auditorium 2
Philip de Langes Alle 10, 1435 Copenhagen K

-1.6525348793.286582121 -9.355405728

-1.6525348793.84614E-16 -9.355405728 -1.652534879-1.6525348796.573164243 -9.355405728
With the symposium **Computation and Material II** the Center for IT and Architecture invites international speakers to discuss the emergence of new digital production techniques and their practices. Practitioners as well as theoreticians will discuss the new techniques, design paradigms and formal languages that are arising through these technologies. Showcases of recent projects and discussions about the implementation into the crafts of building and drawing will highlight the impact of latest developments in the field of design and manufacturing.

Prof. Mark Burry

Director of the Spatial Information Architecture Laboratory (SIAL), RMIT Melbourne

Prof. Neil Leach

Curator of the Beijing Biennial 2007, co-editor of Digital Tectonics and Professor of Architecture at University of Brighton

Mark Gage

Head of Gage Clemenceau Studio and Assistant Professor at Yale University School of Architecture

Prof. Achim Menges

Partner of Ocean North, Studio Master at Architectural Association, London and Professor for Form Generation and Materialisation, University of Art and Design HfG Offenbach, Germany

Prof. Mark Goulthorpe

Associate Professor MIT, Head of dECOI
