

# DANIELA KIETZ

ARCHITECT (MA)

Specialized in Urbanism and Landscape

What drives me as an architect are the various ways in which architecture can impact society and the responsibility we carry in creating urban spaces. I believe that recognizing the potential in transforming existing urban fabrics, social analysis, collaboration and nature stand as cornerstones in my work.

I often find inspiration in nature, social practices and site specific history and express designs through both analogue and digital methods. I love creating playful designs through a variety of visual representation methods.

## PROFESSIONAL EXPERIENCE

---

### 8/2022-6/2024 Mangor & Nagel - En del af AART

Latest employment as student assistant in relation to masters degree in architecture. Work ranging from competitions, commission projects, building physical and 3D models. The work includes a comprehensive understanding of digital softwares, the full Adobe pack as well as Autocad and Rhino for rendering and model building. Furthermore, developing situational awareness, teamwork and prioritising work according to deadlines.

### 2/2021-8/2022 MASU Planning

I started at MASU Planning in February 2021 as an intern in relation to my bachelors degree and continued as full time Junior Architect in June. In addition to all tasks similar to Mangor & Nagel, other tasks included PR, managing the homepage and social media as well as well rounded office management, setting up for meetings and ordering supplies for the office.

---

## ADDITIONAL EXPERIENCE

---

### 2/2023-5/2024 Picniq - Valbyparkens spiseri

Waitress, barista. Work including shift management, interaction and accomodation of customer needs.

### 3/2019-6/2021 Kaffe Departementet

Extended knowledge of the origin of coffee and raw materials as well as providing customers with a local, more personal experience.

### 8/2017-7/2018 Gustav Pauligs Café and Roastery Paulig Kulma, Helsinki

Work including delegating tasks, customer service, extensive knowledge of both food and drinks, making orders, organising brunches, caterings and other events and completing a national barista education with a test.

---

## PERSONAL INTERESTS

---

As an extrovert, I love meeting new people and spending time in the city surrounded by events and social activities. My hobbies include going to the gym and painting which I feel take care of both my mind and body. But, as a Finnish person, nature is very close to my heart, swimming, going to sauna, taking a boat trip between islands and spending time with family and our dogs. My favorite food is hard-boiled eggs on (Finnish) ryebread with 'Kalles Kaviar' (a Swedish caviar paste on tube).
